Epiroc Command Suite

Epiroc's CAS system reporting platform

Command Suite serves as Epiroc's CAS system reporting platform, combining real-time updates from all CAS systems on the network. It provides valuable insights into traffic congestion, asset utilization, and tracking. Additionally, in connected operations, Command Suite combines data from all Epiroc Titan CAS devices into high-level reports focusing on utilization, system health, and infringements. Moreover, it facilitates over-the-air updates and parameter configuration distribution.

⊕ Main benefits

Centralized reporting. Combines real-time updates from all CAS systems for comprehensive reporting.

Data insight. Provides valuable insights into traffic congestion, asset utilization and tracking.

Integrated evaluation. Enables combined data analysis from all Epiroc Titan CAS devices for detailed reports on utilization, system health and infringements.

Efficient updates. Facilitates over-the-air updates and parameter configuration distribution for seamless system management.

Features

- Vehicle Speed Information
- Vehicle Utilisation
- Vehicle Status
- Vehicle Trip Report
- Personnel Logistics Management
- Asset Management
- Traffic Control
- System Events
- Heatmaps

United. Inspired.

Performance unites us, innovation inspires us, and commitment drives us to keep moving forward. Count on Epiroc to deliver the solutions you need to succeed today and the technology to lead to tomorrow.
